

## **Summer Reading 2022 Grant Application Requirements**

### **Summer Reading Funding Opportunity**

In 2019, only 49% of Sacramento County children could read at grade-level. We have not broadly measured our schools since the pandemic, making data difficult to access. That said, the combination of COVID-19 and the already identified literacy crisis in Sacramento will drastically impact this generation of children, their future, and the future of our city.

Summer reading, kindergarten readiness, and school attendance remain the top three factors impacting a child's ability to read at grade-level. According to research, reading five age-appropriate books over the summer is what it takes to hold onto earned reading skills. Summer reading programs are a great way to engage children during summer recess and prevent summer learning loss.

Summer of 2022 will be imperative to prevent further reading skill degradation from the COVID-19 pandemic. Summer reading programs serve a vital role in accelerating grade-level reading proficiency.

### **Sacramento Literacy Foundation Goals**

1. To raise resources to grow children's programs that increase literacy skills.
2. To raise awareness of the literacy crisis in our community.
3. To encourage meaningful and strategic collaborative efforts to help every child in our community reach grade-level reading.

### **Grant Dollars Available**

Funding for Sacramento Literacy Foundation's children's literacy efforts are provided primarily by its Children's Literacy Endowment. This funding will be granted out to the community for qualified activities.

### **What We Will Fund**

Project-specific grants for organizations that provide summer reading programs for children and youth, ages birth through 18, in Sacramento County. Service areas inside the SHRA Promise Zone will be prioritized.

### **What We Will Not Fund**

Funds may not be used to replace state or local funds for staff or school personnel, or for celebration supplies, food, or refreshments.

### **Eligibility**
